

PUBLIC NOTICE

Kimball Junction ENVIRONMENTAL IMPACT STATEMENT

The Utah Department of Transportation (UDOT) is issuing this notice to advise the public that an Environmental Impact Statement (EIS) is being prepared to evaluate potential transportation solutions to improve mobility along Interstate 80 (I-80) and State Route 224 (SR-224) through the Kimball Junction area of Summit County. UDOT is seeking public input on the proposed alternatives, purpose and need of the project, alternative screening criteria, information that could be pertinent to analysis of environmental effects, identification of significant issues, and identification of potential new alternatives.

The same information will be presented at both meetings. A presentation will be made on Zoom (which will be recorded and later available online), while the in-person meeting will follow an open house format with no formal presentation.
